If it's not too late, suggest removing phrase "we need a plan," as it sounds like we are calling for an energy plan and don't have a plan. Suggest simplifying as follows:

- However, the path to running fully on 100% renewable energy will take time. ~~and we need a plan to meet our state's energy needs in the meantime.~~ Along the way, we will need other energy sources to move us away from the pollution of coal fired power plants.

Got it. I think these are more thorough than what will go to OPE and others.

+Julia so we're all on same page.

I think so, but Julia asked that I go ahead and send to Jeremy. And I threw Jordan on there since he'd asked too.
